FIFA is a football simulation developed and published by EA Sports (formerly Infogrames). It is one of the best selling sports series with over 128 million copies sold worldwide.[3] FIFA is being developed using the Frostbite 3 engine and modelled after the sport of football as it is played in real life, with each player possessing a collection of unique attributes and physical capabilities. A gameplay style with a focus on realism which has earned the series its passionate fan-base. FIFA also employs a "deep feature set" system, the development of which has been described as one of the main reasons behind its success.[4] FIFA on

PlayStation 3 and Xbox 360 With the release of FIFA 10 on PlayStation 3 and Xbox 360, the developers began a new era by re-defining the gameplay experience: Bringing big player movements. PRO PREMIER LEAGUE PLAYER New “Player Position” feature Each player now has two distinct skill sets: a “Player Position” and a “Playing Style.” The former represents the player’s strong attributes and specialties, while the latter defines the player’s playing style. These will affect everything the player does in game, from fine-tuning moves and positioning to striking the ball, using the ball, and heading the ball. Updated key passes and skills ratings Every

key pass and dribble is given a skill rating, based on your current in-game performance. There are now over 550 skills to master, including new moves like the B-Bomb and Rock the Box, as well as head passes and headers. Combos in the tutorial have been revamped In the tutorial, new tutorials now allow you to chain key passes and skills into one completed move to learn the basics of scoring and keep the ball. New Tips To provide more context to new players, the Tips section has been improved. Every move now has a short description, tips, and visual cues to help you master its nuances. Simplified Skill Controls In addition to a new summary of all current key passes, skills, and overall performance, the game provides a summary of

each player’s stats and skills at the end of each game. The “Play Style” feature is now separate from “Player Position” The “Playing Style

With enhanced gameplay, new controls and smarter AI, FIFA delivers the authentic feel of real football to a new generation of players with more player intelligence, better ball control and a deeper connection to the pitch. EA SPORTS FIFA 22 brings to life the fast-paced, high-scoring and intense gameplay of the most popular football video game on the planet, providing the ultimate footballing experience in FIFA for the first time. Gamers will be put in the shoes of legendary players such as Lionel Messi, Cristiano Ronaldo, Neymar, Ronaldinho, and Zlatan Ibrahimovic as they take on the World Cup and the game modes FIFA Ultimate Team, Career Mode,

online and offline tournaments and traditional 5-a-side. Video game legend, John Madden (the creator of the Madden NFL franchise), takes the reigns as lead commentator for EA SPORTS FIFA 22, with five-time FIFA World Player of the Year, Paul Scholes on board as Assistant Commentator. Pundits John Chenery and Brad Friedel will also join the commentary team as analysts. Player Intelligence Off the ball, a new AI system allows the most intelligent and well-educated player the advantage in terms of ball control and movement, and allows defenders to learn about and anticipate potential danger during the run of play. New feature: Phases Players have the ability to change their direction more smoothly and intelligently through the

course of a single move. This is especially useful in the penalty area, but it can also assist in these areas: Fly-Kicks Create a more effective turn while delivering the ball Dribble and Run Increase speed and change direction quicker Defenders protect deeper to help ball carrier get past Attacking players, particularly in the final third of the pitch, are able to pass and use runs and dribbles in tight spaces, providing more room for teammates to break into and support. High-Pressure Soccer High-Pressure Soccer (HPS) is a brand-new feature that improves the ball-to-ball movement for players as they try to outwit each other in tight space on the pitch. In HPS, the game will prompt players to make quicker moves based on real-life

results that lead to players chasing high balls and making more movements across the pitch. Playing the ball comes down to the individual, so if a player thinks he has seen the ball
