AD900 Pro Key Programmer 3.15 adds the function of copying 4D Chip, recognizing 8C/8E chip,reading 8C/8E chip information.. DescriptionQ&A (16)Reviews (4)Related Download FilesTech Support. 1.. Software Version: 3.15 2.Q: How do I stop my phone from automatically flashing the boot screen and unlocking? The other day I went to get my phone out of my pocket and it started showing the boot screen, but even though I entered my PIN it didn't unlock the screen. Then I'd have to manually force it to the home screen by pressing the power button. What is it doing? Is there a way to stop it? A: Force the phone to reboot by pressing and holding the power button. The phone will reboot and a menu will appear. From there you can lock the phone and choose lock the screen. On the menu that shows, there will be an option to lock the screen when device is set to auto-lock. By selecting this you will not have to enter the PIN to unlock the phone.
