In a previous step, you created the VM instance(s). In another step, you created the user's credentials and then.Q: Junit: Assert-failure on constructor call (AssertionError) I'm a little stuck. I'm trying to call a constructor from a Junit test, but the assert fails. I've narrowed it down to the particular line of code, and I know why it fails, but I don't know what to change in my code to get it to pass. I'm using eclipse, and when I run the test, I get the following error: org.junit.ComparisonFailure: expected: but was: The question is, how do I get it to accept the assertion? public class MainActivityTest { @Rule public final ActivityTestRule

activityTestRule = new ActivityTestRule(MainActivity.class); @Test public void onCreate() { //Thread.currentThread().setPriority(Thread.MAX_PRIORITY); activityTestRule.getActivity().setContentView(R.layout.activity_main); Assert.assertNotNull("getContentView() returned null", activityTestRule.getActivity().getContentView()); Intent intent = new Intent(); intent.set
