Elden Ring is an action role-playing game developed by the indie studio Focus Home Interactive and published by Warner Bros. We aim to provide a thrilling new fantasy adventure with a modern action game experience. ABOUT FOCUS HOME INTERACTIVE LTD Based in the Czech Republic, Focus Home Interactive is an independent publisher with offices in France and the US. In the last decade, the company has been listed on the over-the-counter market in France by Euronext and on the stock market of the Paris Stock Exchange. Its shareholders are Focus Home Interactive, Warner Bros. Interactive Entertainment, Charta Group, ZeniMax and Vector Group.Q: How do I set $logFilename and $logLevels in core.php I need to change the log filename and level by running the core.php I tried this setting from the documentation Use php --ini in you command line. Change the following settings in your php.ini: Core: ini_set('log_filename', 'core.log'); ini_set('log_level', '3'); I need to use echo $logLevels; to find the available log level. A: I'm not sure I get what you're asking, but.. php -i seems to show the ini_set settings as you mentioned. Jake Paul(Moose) Jake Paul aka Moose is a funny and entertaining one man show and has been dubbed the YouTube Music/Endorphin/Animator/Actor/Emcee/Radio host/Event entrepreneur, he tells all his stories and jokes as it came to him. Jake talks about anything and everything under the sun. Jake is much loved in shows, as well as being a producer for Comedy Central, Funny or Die and will have his own Netflix show coming soon! And most importantly he talks to all of the young kids that he helps bring up and gets to a place in his life were he is no longer the guy who cried in High School. He is a straight up stand up comedian with something to say and he will never apologize for that. He wants people to laugh and have a good time. Jake Paul is a BISHOP! This is a not joking situation. He is also a speaker and should be on your speaker's circuit. www.JakePaulSpeaks.com Jake Paul is in the top

Elden Ring also includes online multiplayer that loosely connects to other players.

Check out "Role-playing Game Version" below to hear from the developer for a deeper look at the robust gameplay features.

Role-playing Game version:

The dynamic of the story unfolds from this point onward...

If you are no longer interested in the story, do not worry. You are free to choose any of the actions in the story. You may choose to operate alone or may work cooperatively with other players.

We have also developed "Elden Ring BR" which requires buying a controller only from Microsoft for 90USD. The "BR" functionality is slightly different from the feature of "Elden Ring". You can login to GameFAQs with KINECT and enjoy the game as you play it without having to purchase any controllers. Elden Ring has been updated to include features unique to the platforms. When you play Elden Ring BR using the controllers you are able to enjoy the Open Cross-platform System which allows other players to get through even when you are playing on a different platform.
