Firebird MP3 is Copyright (c) 2018, mikethebor.com. All rights reserved. amazing app to rip cd's and convert to mp3 very easy to use.. i think, i've converted almost 1000 cds using this app.. and best part is no audio delay even if it is to slow.. and good thing is that cd's are ripped where i can drag it to the new folder... i like it.. don't think there are many apps like it.. but this one is good.. available in the play store.. When I try to sync the music I get an error message: There was an error adding songs to the library: There was an error contacting the Web server. The next day when I try to download the music 3a67dffeec
