* Free Transparent Png Background Windows 10. Step By Step Tutorial. (PC) How to create a *Free transparent.png background for your Windows 10 Themes. Download Darker Themes, and change the colour of the windows to a darker colour. * Free Background Photoshop Images 1. Create a white space in a picture that is in the shape of the background you want. Give the picture a transparent background (white/transparent or whatever colour you want) Create a new document that is 536 pixels wide and 736 pixels high. Since you will be creating a transparent background for the picture, you need to have this document's background set to white. Now you can draw something in the picture. You can choose to make this picture black, white or any other colour. If you make it completely black then you will not see the picture beneath. To see the picture, you need to click the transparent background or open the image in Photoshop as a new document. If you choose to make it black, then the picture is white and is now seen over the background. Continue to draw more on top of that black layer. If you draw a shape of what you want the background to look like, that will be what ends up below it. You might need to repeat this step if you draw more and more on top of the black layer. * Free Background Photoshop Images 2. Change the background to a white background. This is the step where you actually create your background. Click on the background and choose black on white. Now you can start to fill your background with whatever you want it to look like. You can choose any colour or design that you wish, but a simple red rectangle will look very nice in many photos. * Free Background Photoshop Images 3. You can add a border around your white background. Click where you want the border to start. Choose a black colour for the border. * Free Background Photoshop Images 4. You can also add a black to white gradient. Click where you would like the border to begin. Set the colours of the gradient so it starts with a black colour and continues to a white colour. You can also change the settings of the gradient so it is not even. The sliders in the gradient are to give you a more professional look to it. * Free Background Photoshop Images 5. If you are looking for something a bit more original, try making
