This will allow users to choose multiple rows from a list. Since this is a new project I want to convert to ASP.NET MVC 2.0. The Kendo javascript library has a wonderful example of a link button in a table (It seems that the code to create a similar link button was removed from MVC2. How would I achieve the same effect in MVC2? A: You could add a link in the form of a HyperLink, bind its click handler to toggle the state of the checkbox. In the click handler, call a controller action. In the action, pull the "selected" checkboxes out of the view model and insert them back into the view model. Advances in semiconductor processing and logic design have permitted an increase in the amount of logic that may be present on integrated circuit devices. As a result, computer system configurations have evolved from
