(support@threelc.com).West Park Wind Farm West Park Wind Farm is a
wind power project located in the North-West of the South Island of New
Zealand. The project has a nameplate capacity of 96.8 MW and consists of
two 60 metre (200 ft) wide turbine towers, providing a total installed
capacity of 96.8 MW. When it was commissioned in November 2009, the
wind farm was the second in the country to produce electricity from wind
power, and the largest wind farm in New Zealand at that time. It is
expected to generate electricity for 100,000 homes. The wind farm is
located in the town of Orari, in the Southland region. It is owned and
operated by Orari Windfarm. See also List of largest power stations in New
Zealand References Category:Wind farms in New Zealand
