com: Patenting in Biotechnology: A Laboratory Manual (9788750211006) Ulvskova, Petra and a large selection of similar new, used and collectible items. A separate chapter of the book details the rise and development of patents for Biological Systems, and also describes the reasons why some Patent Exceptions should be abolished in order to open access to all patents for Biological Systems and prohibit clinical medicine. A number of measures are proposed to improve the activities carried out by the US Patent and Trademark Office. This guide is useful for both students and professionals in the field of biological science, economics, management and marketing.
