Popup Assassin Free Crack+ X64

Popup Assassin allows you to block many annoying popups such as those you get from gambling sites, unreliable online stores, phishing sites, pop-ups for illegal downloads, pop-ups for SPAM emails and so on. No installation needed, its free! Popup Assassin Features: Popup Assassin helps you get rid of annoying popups at once. The program has three sorts of filtering: • Filtering for the whole browser: the program can block popups from all known and unknown sites; • Web-sites filtering: from here you can make the program block only specific sites (those you wish); • Exceptions: you can set some exceptions in the program so that you can bypass the Popup Assassin's settings (because you need some popups such as CAPTCHA or such). In case you still won't remove popups completely from your browser you can use the program Popup Blocker; you don't need to buy it! How does Popup Assassin work? Popup Assassin works using the following methods: • Masking: the program hides popups it doesn't recognize in the popup list and remembers the sites that cause those popups; • Closing browsers: in case you still get popups the program can close browser windows automatically; • Blocking popup windows: if the program notices an annoying popup it will stop the popup on all tabs you're accessing. On the other hand Popup Assassin is easy-to-use. You can set the options and browsing history in the settings dialog and you're all set! You can completely turn off the popup blocking in settings. Once you have entered the right password, you'll have full control over any of Popup Assassin's settings. If you don't know the settings for Popup Assassin or you lost the password for it, you don't worry: help icon will let you know everything. What's new in version 4.0.9 build 9.6? - an easier interface! You don't need to press any icons at all to see the menu to set the program options (settings dialog). - when you have a broken site pop-up and you access another tab - Popup Assassin will close the tab! So, if you have 2 tabs of a third-party payment website, on which pop-ups are done, but the payment is not going to be performed - just open another tab and the website will be closed - there's no need to close 6a5afdb4c
