T-Mobile CEO John Legere announced on Thursday that the carrier will offer the iPhone at a special price and add a "pro" plan in the winter. Legere said that the plan would offer free data, Netflix and several other applications at no cost. T-Mobile also said that the 4G LTE network would carry the iPhone. Apple has previously said that the iPhone would come in both 3G and 4G LTE networks, and T-Mobile has routinely touted its network performance. "The path to deliver the best network experience has and will continue to be driven by our customers," Legere said in a statement. CNET reported on the carrier's plans for the iPhone, noting that T-Mobile was likely to offer a 64GB iPhone, and that AT&T would most likely carry the 16GB iPhone. AT&T's network supports both 3G and 4G LTE, but its contract-free plans and use of its 4G LTE network have made it a much more popular network over the past few years. 2) i n b a s e 1 5 ? 1 6 9 9 7 W h a t i s - 1 1 1 0 1 0 0 1 1 0 1 0 1 1 1 0 1 1 (b a s e 2) i n b 0cc13bf012
