**Winsoft JSEngine 2.7 D6-Delphi 10.2 Tokyo**

---

I recently discovered that Winsoft has released a new version of JavaScript Engine and called it Winsoft JS Engine 2.7. And they only produce one PCAT file, and only compatible with Delphi XE3-XE10. We have to download the source code of this engine and parse out the necessary parts to build a new JSE package. I will write more in detail about the completed work in the next update. Also, the next SDK to be released will be Winsoft JSEngine 3.1. It is the latest JavaScript Engine with support for Delphi 10.3 Tokyo and C++ Builder 10.3 Tokyo. Some tools and methods will be added to improve efficiency, and such a new JSE Engine will have a new UI and UI components with default style. Winsoft's JS Engine 2.7.0 is only compatible with Delphi XE3-XE10, and more information on this version can be found here: [http://delphi.winsoftusa.com/support/delphi/en/xcfp/javascript\\_engine\\_2\\_7\\_0/index.htm](http://delphi.winsoftusa.com/support/delphi/en/xcfp/javascript_engine_2_7_0/index.htm) thavarn 63b95dad73 <https://marketplace.visualstudio.com/items?itemName=baklanov.Winsoft-JSEngine-27-D6Delphi-102-Tokyo-FREE>. thodrak 63b95dad73 <https://marketplace.visualstudio.com/items?itemName=baklanov.Winsoft-JSEngine-27-D6Delphi-102-Tokyo-FREE>. ## Winsoft JSEngine 2.7 D6-Delphi 10.2 Tokyo

For the test purposes, I have chosen the path from the Winsoft-JSEngine 2.7, its Windows store and DirectX. The configuration of JS is pretty simple; other settings are very close to the demo. Just the source code is the ready to use form. If you encounter a problem or you are just bored to see the product in action, <http://jsengine.net> is ready. Also, you should be interested in what I did with programming. Just tell me when you have a need for it. I'll send you the source code.
