Diablo is a cult computer game, released in 2000 by Blizzard Entertainment. Diablo is an action/RPG that combines the hack and slash and tower defense genres. The project was released on Microsoft Windows, Mac OS and SunOS and several other platforms for cell phones, portable game consoles and gaming systems. The plot of the game takes place in a fictional world called Sanctuary, which was cursed in the distant past by an unknown entity known as Diablo, Diablo II, Diablo 2. Diablo, Diablo II, Diablo 2 The conception and execution of the games has always been a point of contention for Blizzard fans over the years. They were once very strong projects, but then they got weaker and weaker. And now the moment has come when the series has worn itself out. Many fans were waiting for Diablo III, but Blizzard made a mistake and released it too early. Though this game has its good points: the new part is much more interesting and thought out. As in the previous installments, you play as a demon hunter.
