Product Description Product Description Half-Beast / Half-Human Horde The Half-Beast Horde is a force of regal bloodsuckers which combine a magical aura with frightening strength and abilities. They are absolutely loyal to the Grey Book, the source of all their power and glory, standing on the advice of the litter and are convinced that no human has the skill or knowledge to

replace the Book. Clan Structure Your half-beast Horde clan is broken down in to 2 major types, regular half-beasts or the KMS (Kinship of Mortals). KMS are essentially Households of last blood and the like. Human households are the closest equivalent. Half-beasts suffer first from other half-beasts. It's difficult for a half-beast to see out of the tusks, horns or maybe even the eyes of another. They are frankly shunned by the planetary population due to the fact that this makes them easy prey. Only through the Book are they granted a nomadic kind of lifestyle. Offspring Half-beasts are born with tusks. These are males from females with psychic ability. Females are born with cloven hooves and just claws. Both these are average in length and not as strong as their male counterparts. Being half-beasts is highly hereditary through mother and father, if they have tusks then their son's will also. It's an almost surety, often from the first generation. The most obvious example of hereditary tusks is Brugh. Physical Description Half-beasts are larger than humans, but due to the fact that when they are born half-man, half-beast they have a ~40% stronger attitude. They are also clawless, their claws being shed as they mature. Half-beasts have average human heads with their eyes enlarged. There is also some bruising to the eyes during character creation. Half-beasts are bigger than humans. Most half-beasts are the size of a small human and reach the stature of a large man, but there are also the larger, massive growths. These large forms of the half-beast are the result of cruel lab-incubations that have occurred over hundreds of years, making them very powerful. There is some discrepancy as to whether or not tusks grow in the same style as half-beasts or if they grow in the normal humanoid
