Two teams of two players must clear the center of the Stage by jumping on it using the Tab key, under specific rules! The goal is to make the other team lose all of their items. The two teams start together, will each other located on opposite sides of the Stage, and in turn in the middle, while their items are in the middle of the Stage! * Each player will try to jump on any of the above objects located in the Stage: block = 0, floating block = 1, platform = 3 and small block = 4. * If a player touches any of these block 0, then they will need to go to the next Step. * If a player jumps on floating block = 1, he will go to the next Step, the only condition will be when he touches the small floating block = 0. * If a player touches the platform = 3, it will be lost, and that player will need to make the first jump. * If the small block = 4 touches the platform = 3, that player will also be lost! * If the player touched the middle block = 2 (center of the Stage), it will be lost, and that player will need to make the first jump. * If the player touches the big block = 1, they will lose, and the player will need to make the first jump. * If the player touches the center block = 2 (which is not touched by any player at this time), a player will need to make a jump without a touch to the center block = 2, and the player will be lost. * The player will be lost when the other team loses all of its items. * Every player has their own items, which are placed randomly on the stage, only the players with their own items can make jumps and touch them. About The Developer: Hello, nice to meet you! My name is Egil and I'm a university student, I've already had more than 5 years with the video games industry and I want to continue playing! I created this game as a hobby for a while and I hope to make more games for people. Lately, I've been working to have better graphics and special effects in the game, for example, to give my fans a lot of fun with the game. I wish you enjoy the game as much as I enjoyed making it. I will make more updates as the game goes. (This is the first Cat Launch Studio game,

SECRET AGENT NINA: I'll send a report to Section A-12 as soon as the mintage has been certified. —Translated from Korean The emergency preparation for the South Korean Cabinet meeting in room 412 (Korima, the new building) — during the demonstration of the new sophisticated gun. Woman in the new building Korima: The implementation of an emergency defense system that detects an attack before it is executed is the most sophisticated weapon system in the entire NOA (New Open Architecture). * Even if something happens in a short amount of time, the most advanced "Chatterbot" technology makes it possible to immediately identify and significantly reduce the damage to the system. As the famous phrase says, "If you see something, say something." Chatterbot: The words that make it possible to understand the situation is based on artificially intelligence technology. The first system was able to classify the words as a noun, verb, adjective, adverb, or interjection in less than a second. And it was able to achieve more than 1,000 words per second. It was able to learn and analyze various situations in the world, and could also distinguish between similar situations by comparing the variety of grammar. Korea Eastern Broadcasting Co.: Chatterbot's learning speed has reached nine times the speed of the previous generation. After it starts learning and analyzing, it has accumulated a total of more than 32 billion words. Korea Eastern Broadcasting Co.: Korea's trend is just like the comparison of the traffic data for thirty years. Before the Chatterbot, there were 30 million words. And after it, the current number is 542 million. The Chatterbot is like a zombie — even when it has not been programmed, it

Carefully crafted from Wilma's dream world, Dreamland is a fast paced side scrolling 2D fighting game. You can jump and dash through the stages, and use special moves to win the fight against all the enemies! You'll need to use quick, powerful attacks to bring down each type of monster quickly, and quickly adjust your strategy as the enemies get stronger! What You'll Be Doing: 1. Learn new combat moves and combos 2. Get stronger and win more battles 3. Explore and learn new areas of the map 4. Collect money to upgrade your skills 5. Upgrade your skills to defeat more enemies 6. Unlock new fighting styles and new stages 7. Score high enough to make Wilma proud! Keyboard & Mouse Controls: All keyboard & mouse controls are mapped to the game, no special setup is required. It works well with both left & right handed gamers. How To Play: Use your space bar to jump. Press up & down to dash. Each stage has a timer that counts down when you're in the air. Once it hits zero, you'll automatically start falling to the ground, otherwise if you're near a monster it'll pop out and attack you. For your health you can press the mouse button to give yourself a protective bubble. When you're in combat you can press the mouse button to activate any of the special moves, such as high jacking, whirlwind dash, and flaming dash. You can press the mouse button to super jump, allowing you to skip any of the enemies on screen. You can also press this button to activate the hot key function. On your second hot key, press the mouse button to use any of the special moves. As you progress you'll find more hot keys are added, which will lead to even more possibilities for the combos and attacks! When you collect coins, you'll have the option to upgrade your skills, either by unlocking a new fighting style or by upgrading from one skill to the next. Each skill is based on a different category of attack, such as low, high, or fireball. When you unlock the skill for the first time, you'll see the icon on the left side of the screen. When you use your skill points, you can unlock new stages for play. And each stage will end with a boss, who will be more challenging and harder to beat. You can gain money by winning each stage and defeating the boss. It helps to upgrade your skills as you go

If you have any doubt or problem feel free to contact us via e-mail: .Justice Secretary Rafael Catalá has admitted that he signed the appointments that gave rise to last year's registry scandal. Catalá refused to deny signing an appointment order on 11 May 2015, the day when the register was redone. The public prosecutor's office has recently taken over the investigation into the error on the register, Catalá said in one of his interviews with the news media. Catalá signed the order on the preliminary registry with the additions in red, in which he erased all the properties, which were identified by the public servants. It was an incident that inspired the movie The Hateful Eight, made in Quentin Tarantino's hand and released on Christmas Day. Catalá's statement came in answer to an opposition request to have him clarify whether he signed or ignored the appointment order for the director of Personal Estates as a witness to the already finished process of cleaning up the registry. Catalá said he considers that during the performance of his duty he must avoid and avoid any direct interaction with judges and public servants. He said that he doesn◆
