What's New In?

AP The morning after the Titans released former starting quarterback Jake Locker, not only do they have Mike Mularkey and Ryan Fitzpatrick on the roster, but they have a very unimpressed team president. Titans owner Bud Adams isn't happy with the job they did in their decisions on Locker, claiming they were too loyal to him. "You have got to be loyal to the players and not to the management," Adams said, via Rick Venturi of the Nashville Tennessean. "I do not feel we treated Jake Locker as fairly as we should have." Adams wouldn't go into detail, as it was a team meeting. But there were reports that Mularkey was unhappy with how Locker was treated, so it doesn't seem like Adams is buying the explanation. The Titans have had good success with former starters using a change-of-pace quarterback. Colin Kaepernick got them to the Super Bowl. Steve McNair led them to the playoffs. Jake Locker had the Titans in the playoffs for four consecutive years. The way they handled Locker has to be held against them. The Tennessee Titans made a bad decision for a good reason.Q: How to display Recaptcha error message inside a div?
