files,.Q: Thymeleaf and Spring Boot API - getting a 404 I'm trying to get this to work, and I'm hitting a road block. I have a Thymeleaf template with a Spring Boot @RestController Here is the controller @RestController public class MyRestController { @Autowired private MyDataService myDataService; @RequestMapping(method = RequestMethod.GET) public List getAllMyData() { return myDataService.getAllMyData(); } } My data service public interface MyDataService { @GetMapping({"/getAllMyData"}) public List getAllMyData(); } However I keep on getting this 404 Any idea what I'm doing wrong? A: I think you need to specify a path for the @RequestMapping annotation. See these articles for information on this. So far, the IUDs that were implanted in women in the Inaki and Yapiak areas of Paramaribo were found to be working very

well. The volunteers have told the teams that there have been no complications.
