Start the game using the Space bar, but

What's new in DrillsVR:

on Geek Social NetworkWant to look at your avatar? It's 99 cents!Advertise here! 3.1 out of 5 stars "The level design is quite good, but..."12032013-02-15 1 review 1.8 out of 5 stars "The level design is quite good, but..." Obviously written before facing it yourself. Has a decent diversity of items, particularly in the end-game. See the "features" section for further information. Style: 5/10. Many rooms, uses, etc. covered. The implementation of some features, particularly some custom interface stuff (guessing auto-gate through the clearing of machinery) could be better, but perhaps custom was on the mind of the author at the time. Telltale-styling: 5/10. In between these "one-off" rooms and the main game flow, it's just more mission games. Solid game flow, but it would probably have been cleaner with a "show, don't tell" approach, but this didn't force such a design. Meaningful game flow: 1/10. Honestly, the game designers were just tired from working on the game for so long, by then. You can't really blame them for flogging a dead horse. Quests and combining side quests: 2/10. Regarding the quests in the game, wouldn't you have to be new to "classic" RPG to see the relevance of many of them? Mostly useless. According to ARPG newbies, "Esteemed magic user, please slay this 10m monster for me!" and "Noble grandmaster, I humbly beg to be saved from my awful 'perks'!" quests are both three seconds of fun. Translation: 5/10. Not horrible, but you have to read a lot to really get the best of it. The lore (or lack thereof) and character summaries are very useful. Lore and storytelling: 5/10. The story isn't particularly cohesive, beyond the pseudo-Arcania-drama you get both in the game and in the introduction. The lore is a bit underwhelming (nothing worse than usual), and although some of it is quite clever (given), the relation between the story and the real world collapses under the weight of the (at least) 200+ pages. Gameplay: 4/10. Enough said. Variation: 3/10. One thing you
