a little in to see the pictures inside. I think I will add an X-Mas tree in to my room. I have always had an X-Mas tree for Christmas. It sits on the piano. What do you think? What fun, what fun! On my two mile walk yesterday I counted one snowman and one snow woman. I saw a deer in the middle of the street (caught my foot in the chain on the driveway); a cat; a kid playing in the park; and a couple of dogs running in the snow. I did not look for Santa...LOL! For dinner I will have chicken cordon bleu w/ asparagus. What did you do for Christmas? Here's to a happy healthy new year. I have to tell you what I saw on the walk yesterday....Not snow, but sleet. The sleet was big and fat and it came out of nowhere. It came so fast that it was over in a matter of minutes. I just hope that the storm passes quickly. Now I will have a repeat of what happened yesterday. I set off my car alarm by hitting a button. Tomorrow will be a busy day. I have to go to work early (YUM) and then I have to walk 2 miles to the doctor's office. It will be colder tonight. The ground has frozen and the wind is blowing across the ground. The wind is sending the snow on to us again. We will all be in for a big surprise in two days. It's going to be a white Christmas! For our dinner I will have some kind of turkey lunch meat with leftover dinner rolls. I can't decide where to go this weekend. I wish I could get a picture of the snow, but there's a 30,000 foot hill here in front of our house. It would make a great backdrop. I have a funeral to go to for a 2 year old girl who passed away from an infection and a medical mistake. What a sad ending to the holiday weekend. I will be very upset. I'm not sure how I am going to get to the funeral. It will be a busy day. My daughter got her drivers license last week. We took her out for dinner, and I told her to learn to drive. In the last two days she has driven on

What's New in the?

Q: compiler error with different functions I am new to C programming and I have a problem with a program I am writing in Code::Blocks. I have an undetermined compiler error with my code. I don't understand why I get this problem. I have a function that reads an integer from a char array and puts the integers in an int array. `char * readInt (int * int_array, int size) { int i, pos = 0; for (i = 0; i`
