Krauch's Formulation of the Minimum Standards of a Program for Physical Education. A3.. 2.8.Krauch, S. A student must be at least 12.years of age for entry into the majority of the PE curricular units, including physical education programs. Minimum standards for physical education. The position paper was prepared in the absence of any comprehensive review of the physical-health-related academic areas of the state's public high school curriculum, with the exception of athletic and physical activity. The tests and measurements used in this paper were developed for application to State physical education standards. In general, the criteria that were applied were: (a) reliability and validity of the test and equipment; (b) ease of administration; (c) interpretability of test results for practitioners and students; (d) cost-effectiveness; and (e) scope of application. This paper will provide the reader with a document-based review of the physical-health-related standards that are provided in the California Physical Education Code, the test battery that can be used to measure physical fitness components, and a reference to several test instruments that are suitable for use at the junior high level. The reader should be aware that a good deal of research has been performed in the past regarding the validity and reliability of the tests and instruments that are described. The purpose of this paper is not to review this research or provide a comparison with other test systems, but rather to present the potential application of existing tests for measuring physical fitness components. . a student must have completed a physical examination completed by a physician within seven (7) days of admission. 6. the test must be a college-level Physical Education Fitness Test.
