But when the egg hatches on his head, the bird goes out of control and wreaks havoc throughout Tokyo. Ranma and the gang must use whatever means necessary to get the . Not so long ago, cinemas began showing a film that, in principle, could have been released on the screen earlier, at least a year. However, the creators decided not to rush, because they wanted to get the most attractive picture possible. In order to achieve the desired result, they decided to conduct a series of very harsh experiments, which, in my opinion, became one of the biggest mistakes of the film. The thing is that the creators have relied on special effects.
