Press CTRL+ALT+DEL and go to HKEY_LOCAL_MACHINE\SOFTWARE\Autodesk\AutoCAD. If the key is already present in the list, skip this step. If it is not present, a new key will be added there. It will be named AcadKey, and will be the same as the.pdb key. Right-click on AcadKey and press New > DWORD (32-bit) Value. In the Value data box, press %AutoCAD %AcadKey Save the changes. Backup all the file Exit Autocad and then re-enter it. Open a file on your disk. Save it with a.pdb extension. If it does not work, make another backup. AcadKey in the registry Locate the key you created in the registry. Right click on it, then press New > String Value. In the Value data box, press %AutoCAD %AcadKey Save the changes. Q: Create a Lambda Expressions.compile() throws an exception I am trying to create a Lambda Expression, however it throws an exception. The expression works when I do not compile it. var test = Expression.Parameter(typeof(int)); var b = Expression.Constant(50); var e = Expression.Lambda>(Expression.Equal(test, Expression.Constant(b)), test).Compile(); My exception System.InvalidOperationException: Unable to translate expression 'test => (int)((decimal)b).CompareTo(decimal)test'. A: You cannot use Constant Expressions inside a lambda expression. This is because lambda expressions are expressions. Instead, you should construct the expression using an Expression. var b = Expression.Constant(50); var e = Expression.Lambda>(Expression.Equal(Expression.Convert(Expression.Parameter(typeof(int)), typeof(decimal)),

A completely redesigned solution for drawing-markup collaboration. Markup Assist is a user-friendly, optional workflow for quickly sharing and integrating feedback on drawings without manual re-drawing. (video: 3:22 min.) Use real-time integration with AutoCAD to incorporate feedback from a web app or web service. Integrate web services using the real-time connection or Web Apps for Autodesk 360 and AutoCAD. (video: 2:33 min.) A new representation of annotations and a powerful new drag and drop function for interaction with text, polygons, and other objects on drawings. (video: 1:23 min.) A new workflow for automatically importing all annotation content from a PDF into a drawing. Annotations can be automatically imported from PDFs, scanned drawings, or Excel files. (video: 1:40 min.) A new workflow for automatically synchronizing the annotation content in all views of a single drawing. The new Rendering Engine: When you work with the new Rendering Engine in AutoCAD, you have access to powerful new features, including support for 2,000 different rendering effects and lighting options. You can also use the new rendering engine to automatically generate high-quality PDF and web-ready files. (video: 4:09 min.) Many of the new rendering engine features are available in AutoCAD from the start and are an easy upgrade from the legacy rendering engine. The new renderer adds support for rendering 3D shapes, including the ability to view and manipulate a 3D shape in different ways using a single view of the drawing. (video: 1:27 min.) Autodesk.AutoCAD.dll changes and breakages: The new renderer requires version changes to Autodesk.AutoCAD.dll. In AutoCAD, add the new Rendering Engine in the Rendering section. For details, see this blog post. As part of the legacy rendering engine's removal, some visual style settings that could conflict with the new rendering engine have been deprecated. For details, see this blog post. The Legacy Rendering Engine will continue to be supported for the next release of AutoCAD. For more information, see the section below.
