FIG. 1 is a schematic block diagram showing the arrangement of a picture display device (e.g. VDU) and a synchronizing apparatus which has been proposed and put into practical use for the purpose of adding addressing, descrambling or other processing to the information signals applied to the picture display device. A box portion indicated by hatched lines in FIG. 1 carries out a process of receiving a radio broadcast signal of a color television program from a tuner 1 and demodulating the received broadcast signal by use of a demodulator circuit 2 to convert the demodulated signal into information signals representing a color television program. A display control portion 3 controls the picture display device 4 and applies color video signals of the indicated format to a signal processing circuit 5 which is constructed of a video decoding circuit 5a carrying out a decoding operation to convert the transmitted color television signals into frequency-multiplexed signals of three colors--red, green and blue--and a control circuit 5b which carries out various operations such as a descrambling operation and a control for picture display processing, and a plurality of input terminals 6 through which a television program is selected from signals fed from a desired broadcasting station. The television programs fed from the desired broadcasting station through the terminals 6 are fed to the circuit 5 as shown by the solid black arrow from terminal 6. In the information signals during display

**Monitoring a national event through the lens of Los Angeles, players are given the opportunity to take control of a real city's police force as a seasoned patrol officer. Los Angeles is a major city that lies on the southeastern coast of the United States. Since the beginning of its history, it has experienced numerous conflicts and since then many missions emerged over the course of time. These missions include the 1986 LA Winter Olympics, when China marched with 3,000 athletes. This number almost doubled until 1985 when 1988 Summer Olympics were held. It became the first occasion when South Korea's host nation, as well as other countries, wanted to demonstrate their level of international cooperation through the conduct of the Games. Still, problematic reports about the condition of South Korean construction were reported, especially the tunnel flooding. Culture Not only do Los Angeles police officers have to enforce the law, but they also have to serve as role models for a culture of staying fit and mentally healthy as well as leading a healthy lifestyle. The city is unique in many ways from one neighborhood to another. There is strong effort to enjoy the culture of this city by spending time throughout the year. The range of factors for each individual to determine how they would live their life. In order to help people improve the habits of their health, information on popular dieting and fitness center are displayed all over the city. Bicycle is the most used mode of transportation in this city. Studies show that citizens in LA spend more time cycling throughout the day than using other modes of transportation. Culture Across Time With a number of cultural days, like Spring Festival and Halloween, LA residents are invited to reflect on a collective theme different from one region to another to provide a new experience for tourists. Urban Area In this city, many entertainment venues, including movie theaters and museums, makes it easy for people to enjoy the shows and exhibitions that can be found all over the city. Events like**

Gamers are needed to defend the Western Provinces against the evil forces that threaten their lands. Forced to take up arms and forge a desperate fight against brutal Chaos hordes, players are sent on a quest to drive back the forces of darkness and secure the safety of our lands. Key Features: - Blizzard Entertainment's award-winning RPG franchise comes to the world of Warhammer in the new title Warhammer: Chaosbane. Players take control of a fierce hero and accompany them on a desperate quest to lead their army back to the safety of the West. - This free content pack includes a Phoenix, a Dwarf Spirit and a Hunting Hawk, as well as a new party member in the form of a sprite. - As they join forces in battle, players can recruit new heroes and unlock powerful weapons and armor sets to help protect their Western Provinces and clear the way for victory. Warhammer: Chaosbane supports the following platforms:Q: Android: Play video in player This tutorial tells me to use the MediaPlayer class. It says I should use the following code: `mMediaPlayer = MediaPlayer.create(getApplicationContext(), R.raw.common1); mMediaPlayer.setLooping(true); mMediaPlayer.setVolume(100, 100); mMediaPlayer.setEnabled(true); mMediaPlayer.start();` But when I do that, I get a null pointer exception. My code is as follows: `// A pointer to the activity, gets saved in the player member variable public void setPlayer(MediaPlayer p,final int selectedMedia) { mPlayer = p; mSelectedMedia = selectedMedia; }` How can I fix this? What am I doing wrong? Thank you. A: This is because MediaPlayer.create() requires a Context and not an ApplicationContext. Try the following: `mMediaPlayer = MediaPlayer.create(this, R.raw.common1);` (Assuming that you have an instance of that activity to do it - from the docs you linked to).
