## What's New In AutoCAD?

Work faster by marking up CAD models in parallel or in batch, in Microsoft Word, PDF, AutoCAD, and SketchUp. Share your customized design with your team more easily by printing PDFs and sharing full drawings using the PDF Print operation. Comprehensive EDA Technology: Improve design and manufacturing productivity with a rich set of engineering, manufacturing, and technology features. New Software Dialogs: Create New Point, Edit Polyline, and Edit Ring dialogs in Point Snap mode. Use the P2P extension to create polylines on the Z axis (video: 0:46 min.) Display a “Dimensions” button in the Dimensioning panel for measuring two- and three-dimensional angles. Add a “Measure Angle” button to the Measurement panel. Choose from 3 different kinds of angle measurement types: angles measured between two endpoints, angles measured between a side and an endpoint, and angles measured by a central point. (video: 1:11 min.) Use the “Profile Cylinder” dialog to draw a cylinder from a profile that’s snapped to a side of a shape. Show a “Point Creation” dialog from the “Distance to Measuring Points” option in the Dimensioning panel. Use the “Measure Length” dialog to measure the length of a line or arc on a profile. Add a “Line Naming” dialog to the linetype palette. This dialog displays names for multiple lines on an element at once. Select lines that form a closed path or polygon on a CAD model using the “Path Selection” dialog. Use the “Hover to Run Parameters” dialog to access custom settings for the right mouse button. Get easy access to the most commonly used dialogs and panels with the new Quick Access panel. Create new CAD documents in AutoCAD 2023. Create multiple copies of existing drawings with the new Create Multiple Copies dialog. Create 3D models of complex mechanical parts from 2D mechanical drawings using the new AutoCAD Surface dialog. (video: 1:06 min.) Drag and drop in 2D: Drag and drop, drop and drag, and shape matching are new ways to draw, edit, and organize 2D elements in
