

Welcome to the dangerous and complex world of bomb disposal. Please read this manual carefully; you are an expert. On these pages you will find everything. But perhaps the most interesting part is the app. Here you will find a map with which you can track the whereabouts of your colleagues. If one of them lost his temper and exploded on a bomb, then you need to immediately call for help, otherwise you will not be able to save them. Well, shall we begin? "Welcome to the dangerous and challenging world of bomb disposal." You enter a room where you are greeted by a guy with a microphone in his ear, headphones and a suit.
