Gameplay is in the following section. ■[TECHNIQUE] ■[GAMEPLAY] ■[STORY] ■[MANA] ■[TRIBALISM] ■[ENEMIES] ■[MULTIPLAYER] ■[GAMEMODE] ■[GRAPHICS AND AUDIO] ■[GEAR] ■[FAQ] ■[MISSIONS] ■[ONLINE SERVICE] ■[ANNOUNCEMENT] ■[SPECIAL AWARD] [TECHNIQUE] Action RPG and Real Time Strategy game that combine the action and strategy genres. When enemies are aggressive, a hack-and-slash method is used, when the battle is intense, a Real Time Strategy method is used. In addition to these methods, the game adopts an action-based “sprite system”, a fast and easy method of battle that enables the player to fully enjoy a battle that is extraordinarily vivid. When melee skills are used, an attack called a “Charge” is executed. This is a skill where the players charge to attack. As the charge progresses, the attack becomes stronger, and when there is no way out, a Critical Strike will occur, enabling the player to increase critical damage. By performing actions that return the character to a safe position, you can gain the “Defense” that raises health and damage, and by attacking an enemy that is on its last legs, you can acquire the “Attack” that improves skill accuracy. By equipping items, you can effectively utilize your character’s skills. It is not necessary to move the character’s hand to attack. Your character can freely attack when the appropriate item is equipped. By equipping items that increase the skills of up to 4 levels, you can freely select the attack method that you wish to use. Through the use of the skill “Charge”, you can transfer to areas outside the action range (automatic searching). You can also spend time and get rest by the use of the skill “Decrease”. [GAMEPLAY] In addition to the action, the game also contains Real Time Strategy elements. This means that the players have the opportunity to select the build-up of their own characters, and you can select the best team for the battle. [
